TACH GAYINT, ETHIOPIA

Medical Outreach to the Beta Israel

Persecution has increased dramatically in recent decades for the "Beta Israel" of the Tach Gayint region of Ethiopia. Their non-Jewish neighbors consider them outsiders and inferior in every way. Non-Jewish children are not allowed to sit with Jewish students in school. Daily the Beta Israel are mistreated by other social groups. They are denied employment and impartiality in the legal system. They are treated with superstition, insulted, robbed, beaten, and worse. But we are going to speak an entirely different message to them! As we bring them free medical, dental, and eye care, we are also bringing them the love and hope of Yeshua, their Messiah. Join us in bringing the life-giving message of Yeshua to these downtrodden people. Come with us and be His voice!

MBERENGWA, ZIMBABWE

Medical Outreach to the Lemba

The Lemba of Zimbabwe clearly have ties to the ancient people of Israel – particularly the Levites – and they are coming to faith in Yeshua in remarkable numbers! God is calling His People back to Himself! Since our first outreach in 2012, over 30 Messianic congregations have been planted and are growing rapidly. Discipleship and leadership training is producing local leadership that is spreading the Good News through the 12 "houses" of the Lemba tribe. There is so much need among the Lemba. Our clinics provide this rural area with desperately needed medical and dental care, and bring the Gospel of Yeshua through our prayer room. Come along with us and be a part of history-making revival in Zimbabwe!

GONDAR, ETHIOPIA

Medical Outreach to the Beta Israel

To many of the Jewish People who live there, Gondar is a place of dashed dreams and abandoned hopes. The Beta Israel in Gondar are among the poorest of the poor. Thousands of them uprooted their lives from other places in Ethiopia and moved to Gondar with the dream of emigrating to Israel through Israel's aliyah program. Many were separated from family in previous mass departures. In 2013, Israel ended all sponsored aliyah from Ethiopia, leaving thousands in despair of a better life. They need to know they are not forgotten by God. They need the hope of Yeshua. You can be an instrument of hope in their lives. Come with us to Gondar and make a life-changing impact on these precious Jewish People.

Be a part of God's prophetic gathering of His People back to Himself as we love and care for the beautiful ancestors of Israel! Join us in meeting their physical needs and introducing them to their Messiah.

HOSANNA, ETHIOPIA

Medical Outreach to the Gefat

The Gefat Jewish People of Hosanna are among the most impoverished of Ethiopia. Their history is one of persecution as outcasts yet they have maintained Jewish practices and culture over the thousands of years since they dispersed south from Israel to Ethiopia. Their heritage of faith and perseverance as a people is mixed with the present suffering and despair of individuals in tremendous poverty. You can bring them the gifts of healing, compassion, and eternal hope in Yeshua.
