Report of Independent Auditors

The Board of Directors
Jewish Voice Ministries International

Report on the Financial Statements

We have audited the accompanying financial statements of Jewish Voice Ministries International which comprise the statements of financial position as of December 31, 2020 and 2019, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Jewish Voice Ministries International as of December 31, 2020 and 2019, and the change in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Jewish Voice Ministries International

Notes to Financial Statements

Note 1 – Nature of Organization

Jewish Voice Ministries International (“JVMI”) is a not-for-profit tax-exempt organization dedicated to transforming lives and seeing all Israel saved. To achieve this mission, JVMI engages in activities to proclaim the Gospel, grow the Messianic Community, and engage the Church concerning Israel and the Jewish People. These activities include events of education, evangelism, and leadership training focused on raising leaders in the Messianic Jewish Community.

On November 8, 1968, Jewish Voice Broadcasts, Inc. was incorporated in the state of Arizona as a not-for-profit corporation.

On December 21, 2000, Jewish Voice Broadcasts, Inc. and Hear O Israel Ministries, Inc. merged. The surviving organization, Jewish Voice Broadcasts, Inc. changed its name to Jewish Voice Ministries International.

Support for this organization comes primarily from donor contributions and event participation fees.

JVMI is exempt from income tax under Section 501(c)(3) of the U.S. Internal Revenue Code (the “Code”) and comparable state law, and therefore, contributions by the public are tax deductible within the limitations prescribed by the Code. JVMI has been classified as a publicly supported organization, which is not a private foundation under Section 509(a) of the Code. JVMI files an annual Internal Revenue Service Form 990, Return of Organization Exempt from Income Tax, and is registered as a charitable organization in 39 states as required. JVMI had no uncertain tax positions for the years ended December 31, 2020 or 2019.

Note 2 – Summary of Significant Accounting Policies

The significant accounting policies followed are described below to enhance the usefulness of the financial statements to the reader.

Basis of accounting – The financial statements are presented, on the accrual basis of accounting.

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could vary from the estimates.

Cash and cash equivalents – JVMI considers all cash and highly liquid financial instruments with original maturities of twelve months or less, and which are neither held for nor restricted by donors for long-term purposes, to be cash and cash equivalents.

Jewish Voice Ministries International

Notes to Financial Statements

Note 2 – Summary of Significant Accounting Policies (continued)

Concentrations of credit and market risk – JVMI maintains cash balances at financial institutions. Certain accounts at institutions in the United States of America are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000. At December 31, 2020 and 2019, balances in excess of FDIC limits were approximately \$18,128,000 and \$7,318,000, respectively. JVMI also maintained deposits of approximately \$203,000 and \$888,000 at December 31, 2020 and 2019, respectively, in foreign financial institutions not federally insured.

JVMI also invests in various investment securities. Investment securities are subject to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements. JVMI has established guidelines relative to diversification and maturities that target certain safety and liquidity risk levels. These guidelines are periodically reviewed and modified when necessary.

Investments – Available funds are invested in common stock, corporate bonds, private equity funds, and commodities. JVMI's investments are governed by an investment policy with guidelines for allowable investment securities, asset allocation, and maturities. Net investment gain (loss) is reported in the statements of activities and consists of interest and dividend income, realized and unrealized gains and losses less investment management and custodial fees.

Following is a description of the valuation methodologies used for assets measured at fair value:

Common stock and foreign mutual funds: Common stock and foreign mutual funds are valued at the closing price reported for identical assets on the active market on which the individual securities are traded.

Corporate bonds: Corporate bonds are valued using pricing models maximizing the use of observable inputs for similar securities which includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, those corporate bonds are valued under a discounted cash flow approach that maximizes observable inputs, such as current yields or similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.

Private equity funds: Private equity funds are measured using the net asset value practical expedient (NAV practical expedient) of the Fund as reported by the account managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding.

Gold: Gold is valued at the closing commodity price of gold reported by NASDAQ.

Investments acquired by gift are recorded at their fair value at the date of the gift. JVMI policy is to liquidate all gifts of investments as soon as practical after the gift is received.

Jewish Voice Ministries International

Notes to Financial Statements

Note 2 – Summary of Significant Accounting Policies (continued)

Products – Products consists of Judaica gift items, books, CDs, and DVDs and all other related items utilized in the media and print operations of JVMI. Products are valued at cost.

Note receivable – The note receivable is evaluated for collectability based on credit history of the borrowers and their current financial condition.

Property, equipment, and depreciation – Purchased property and equipment are recorded at cost. Donated items are recorded at their estimated fair value at the date of donation. Donations of property and equipment are reported as contribution income without donor restrictions. Depreciation of property and equipment is provided over the estimated useful lives of the respective assets on a straight-line basis. Also, no adjustments have been made for appreciation or depreciation in real estate values.

Maintenance and repairs are charged to operations when incurred. JVMI capitalizes all property and equipment, betterments, and renewals over \$1,000 and with a useful live greater than one year. When property and equipment is sold or otherwise disposed of, the asset account and related accumulated depreciation account are relieved, and any gain or loss is included in other changes in net assets.

Impairment of long-lived assets – JVMI accounts for long-lived assets in accordance with generally accepted accounting principles which require that long-lived assets be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell. Management does not believe impairment indicators are present.

Classes of resources and net assets – The financial statements report amounts separately by class of net assets. JVMI reports information regarding its statements of financial position and activities according to two classes of net assets: net assets without donor restrictions and net assets with donor restrictions.

Net assets without donor restrictions: Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the organization. These net assets may be used at the discretion of JVMI's management and the Board of Directors. Net assets without donor restrictions includes amounts designated for specific purposes by actions of the Board of Directors.

Net assets with donor restrictions: Net assets subject to stipulations imposed by donors, and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of JVMI or by the passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity.

Jewish Voice Ministries International

Notes to Financial Statements

Note 2 – Summary of Significant Accounting Policies (continued)

Donor restricted contributions are reported as increases in net assets with donor restrictions. When a restriction expires, net assets are reclassified from net assets with donor restrictions to net assets without donor restrictions in the statements of activities.

Revenue recognition – Contributions without donor restrictions are recognized when cash or ownership of donated assets are unconditionally promised to JVMI.

Donor restricted contributions are recognized as general contributions in the statements of activities when cash or ownership of donated assets is received by JVMI and subsequently reclassified from net assets with donor restrictions to net assets without donor restrictions when expenses have been incurred in satisfaction of those restrictions.

Contributions other than cash are recorded at the fair value of the donated asset at the date of donation.

Group travel revenue is recorded when the trips are made. Deferred revenue consists of group travel funds received for trips that have not occurred as of year-end.

Donated services – Donated services are recognized as contributions in accordance with generally accepted accounting principles if the services (a) create or enhance nonfinancial assets, or (b) require specialized skills, are performed by people with those skills, and would otherwise have been purchased. No amounts have been reflected in the statements for donated services; however, JVMI receives the service of many volunteers to perform a variety of tasks that assist JVMI with specific programs. Since the services do not require specialized skills, they have not been valued in the accompanying financial statements.

Note 2 – Summary of Significant Accounting Policies (continued)

Subsequent events – Subsequent events are events or transactions that occur after the statement of financial position date but before the financial statements are available to be issued. JVMI recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of financial position, including the estimates inherent in the process of preparing the financial statements. JVMI's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of financial position, but arose after the statement of financial position date and before the financial statements are available to be issued.

JVMI has evaluated subsequent events April 26, 2021, the date which the financial statements were available to be issued.

Note 3 – Availability and Liquidity

The following represents JVMI's financial assets at December 31:

	2020	2019
Financial assets at year end		
Cash and cash equivalents	\$ 19,702,181	\$ 9,992,913
Investments	51,633,898	46,096,994
Total financial assets	71,336,079	56,089,907
Less amounts not available to be used within one year		
Net assets with donor restrictions	5,016,310	4,227,456
Less net assets with purpose restrictions to be met in less than a year	(1,550,200)	(1,587,026)
Quasi endowment established by the Board	312,160	204,000
Total amounts not available to be used within one year	3,778,270	2,844,430
Financial assets available to meet general expenditures over the next twelve months	\$ 67,557,809	\$ 53,245,477

JVMI's goal is generally to maintain financial assets to meet one year of operating expenses (approximately \$29 million). As part of its liquidity plan, JVMI must maintain a certain minimum level of liquidity that is sufficient to fund the programmatic activities of JVMI as well as to fund the ongoing expenses of JVMI.

Jewish Voice Ministries International

Notes to Financial Statements

Note 4 – Investments and Fair Value of Assets

Certain assets are reported at fair value in the financial statements. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal, or most advantageous, market at the measurement date under current market conditions regardless of whether that price is directly observable or estimated using another valuation technique. Inputs used to determine fair value refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability based on the best information available.

A three-tier hierarchy categorizes the inputs as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that JVMI can access at the measurement date.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability, and market corroborated inputs.

Level 3 – Unobservable inputs for the asset or liability. In these situations, JVMI develops inputs using the best information available in the circumstances.

In some cases, the inputs used to measure the fair value of an asset or a liability might be categorized within different levels of the fair value hierarchy. In those cases, the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. Assessing the significance of a particular input to entire measurement requires judgment, taking into account factors specific to the asset or liability. The categorization of an asset within the hierarchy is based upon the pricing transparency of the asset and does not necessarily correspond to JVMI's assessment of the quality, risk, or liquidity profile of the asset or liability.

Note 9 – Note Payable

In April 2020, JVMI was granted a loan for \$894,610 under the Paycheck Protection Program offered by the Small Business Administration (SBA) under the Coronavirus Aid, Relief, and Economic Security (CARES) Act. The loan is subject to full or partial forgiveness in accordance with the CARES Act. The loan bears interest at 1%. The original term included no payments for the first 6 months with monthly principal and interest payments beginning in November 2020 and the remaining principal balance and accrued interest payable upon maturity in April 2022, if required. The payment terms were deferred with the issuance of the Paycheck Protection Program Flexibility Act of 2020 enacted June 5, 2020. The deferral period will last until the SBA remits the loan forgiveness amount to the lender.

Note 11 – Board Designated Quasi-Endowment

In April 2018, the JVMI Board established the Retiring Rabbis Fund. The JVMI Board agreed to designate \$100,000 a year for five years starting in 2018 for future use as a benevolence for retiring Rabbis. The fund and its earnings will be maintained and not utilized for five years. As required by generally accepted accounting principles, net assets associated with endowment funds, including funds designated by the Board to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

The Board of JVMI has interpreted the Arizona Management of Charitable Funds Act as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, all of the funds in the quasi-endowment are Board-designated and therefore are without donor restrictions.

Changes in the quasi-endowment net assets for the years ended December 31, are as follows:

	Without Donor Restrictions	
	2020	2019
Quasi-endowment net assets, beginning of year	\$ 204,000	\$ 100,000
Additional Board-designated amount	108,160	104,000
Quasi-endowment net assets, end of year	<u>\$ 312,160</u>	<u>\$ 204,000</u>

Note 12 – Retirement Plan

JVMI sponsors a 403(b) retirement plan which covers all employees after specified periods of service and eligibility requirements have been met. JVMI withholds voluntary contributions from paychecks and remits the contributions to an independent trustee. Each participant may contribute up to 20 percent of their eligible compensation on a pretax basis to the plan, up to the maximum allowed by the Code. JVMI matches 100% of employee contributions, up to 3% of their salary. During the years ended December 31, 2020 and 2019, JVMI's matching contribution expense was \$78,528 and \$82,262 respectively.
